

### Difference of DLB and DLM

Both of DLB and DLM are designed with the same RF modem. The key function difference of DLB and DLM is listed as below:

	DLM Module	DLB Module
Ethernet port	Two 4PIN Ethernet ports	One 4PIN Ethernet port + 1 RJ45 Ethernet port
Data uart	1 TTL uart	3 TTL uart
Control uart	1 TTL control uart	To be multiplexing with one data uart
size	58*48mm	64*48mm
Output DC	No	Have DC 12V output for FAN power supplier
Audio proccession	No	Audio codec with audio in/out
